All items have instruction manuals and all interconnecting cables and power leads.

Availability is on a first come first served basis with the proviso that use by the County has overriding priority.

Booking applications should be made to the Swimming Secretary (Ron Forster).

In view of the delicate nature of the equipment for storage and insurance considerations the County Executive have agreed a normal storage location with the Maxwell Swimming Club. Ideally the equipment should be collected in the week prior to the event and returned the week after.

Clubs will be responsible for the safekeeping of the equipment while it is in their care and will be charged for rectification of any damaged resulting from mishandling or abuse. The club will need to arrange transportation between venues. Be aware in total it fills a large estate car.

In order to cover maintenance and repair costs it has been decided by the county executive that a nominal charge will be made for the use of this equipment. This has been set at £100 per licensed meet or £50 per gala. This should be presented upon collection of the equipment.
